SUMMARY

I have experience in data analysis, data visualization, reporting, and dashboard creation. I hold a certification in data science and am proficient in SQL, Python, Excel, Power BI, Tableau, and machine learning. I have strong analytical skills and am effective at decision-making and problem-solving. I am dedicated to continuous learning and improvement.

TECHNICAL SKILLS

- | | | | |
|--------------------|------------------|--------------------|----------------------|
| • Power BI Desktop | • Advanced Excel | • Tableau | • Data Modelling |
| • Power BI Service | • SQL | • EDA | • Data Visualization |
| • Data Analysis | • MySQL | • Python | • Data Cleaning |
| • DAX | • Pandas / NumPy | • Machine Learning | • Data Storytelling |

WORK EXPERIENCE

MIS Executive | OneSS Infra Pvt. Ltd., Indore

02/2025 – Present

- Creating an end-to-end MIS System for the material supply chain on Google Sheets.
- Creating weekly and monthly purchase reports.
- Creating a live dashboard in Google Sheets.

Data Analyst Intern | Insta Dot Analytics, Indore | [Link](#)

11/2024 – 12/2024

- Developed interactive Power BI dashboards: Created real-time data visualizations and analyses that improved decision-making for the Amazon sales team, resulting in a 15% increase in actionable insights.
- Optimized data loading and processing speed: Utilized advanced data modeling techniques in Power BI, reducing report generation time by 40%.
- Collaborated with cross-functional teams: Gathered business requirements and translated them into technical specifications, leading to the successful implementation of 5 key Power BI solutions.

Tools used: Power BI desktop, Power BI service, Power Query, DAX function, Vlookup, Pivot Table

Customer Service Executive | Teleperformance India Pvt. Ltd., Indore

10/2021 – 10/2023

- Review customer documents as per the compliance, follow the SOP, and input the data into the client system.
- Working on Google Sheets, and ensuring that the targets and Service Level Agreements (SLAs) are met.

Tools used: MS Excel, Vlookup, Pivot Table, MS Word

PROJECTS

Blinkit Dashboard | Power BI | [Link](#)

- Analyzed Blinkit's sales, customer satisfaction, and inventory distribution using Power BI, utilizing KPIs (Total Sales: 425.36K, Average Sales: \$142) and visualizations (pie charts, line charts, matrix) to identify trends and optimization opportunities.
- Performed data cleaning in Power Query, handling null values and optimizing data types for accuracy. Implemented slicers and filters to enable dynamic analysis based on outlet location, type, and size, improving data-driven decision-making.

Pizza Sales Analysis | SQL | [Link](#)

- Designed and implemented a database schema in MySQL, importing tables from CSV for analysis.
- Executed 13 SQL queries utilizing joins, window functions, subqueries, and common table expressions (CTEs) to extract key business insights.
- Derived insights such as total orders (21,350), total revenue (₹8,17,860), and most ordered pizza type, demonstrating proficiency in SQL-based data analysis.

Diwali Sales Analysis | Python | [Link](#)

- Performed Exploratory Data Analysis (EDA) on Diwali Sales data using Python (Pandas, Seaborn, Matplotlib) to identify consumer behavior, purchasing trends, and product sales from a dataset of 11,251 records.
- Analyzed buyer demographics, revealing that women aged 26-35, particularly married women in IT and healthcare, were the top buyers, with Uttar Pradesh, Maharashtra, and Karnataka generating the highest sales.
- Developed visualizations illustrating gender-based purchasing patterns, state-wise orders, and product preferences, identifying Food, Clothing, and Electronics as the top-selling categories.

EDUCATION

Bachelor of Science (Mathematics)

08/2015 – 07/2018

D.A.V.V. University Indore

CERTIFICATION

Full Stack Data Science | [Certificate](#)

08/2023 – 08/2024

Alma Better Edutech
